

Post-War Union Preferred By Institute Men

Other Schools Agree On Most Questions College Papers Ask

A large majority of Tech students would favor the establishment of an international union after the war, judging by the results of a poll recently conducted by The Tech, in conjunction with the Association of Greater Boston College Newspapers. This poll, which is believed to have covered a good cross-section of the undergraduate student body, showed that 79 per cent of those queried favored such an international union. The percentages in most of the other local colleges were even higher on this question, Northeastern alone favoring it less, and they by only one and a half per cent.

Wellesley, Harvard, and Tech agreed completely on the powers to be given such a union, all three favoring the control of commerce, maintenance of an international police power, and declarations of war on delinquent nations. The other colleges were against this last part.

All but Tufts agreed with Tech on the question of trusting Russia to maintain peace, although only 57 per cent of those answering the Tech poll voted yes on this question. The attitude toward the treatment of the Axis nations after the war would seem to be lenient, judging by the poll, which shows that only 14 per cent favor "wiping Germany off the map," and only 27 per cent favor the partitioning of Germany. Feeling against Japan seems to me much stronger, since almost a quarter of those voting favored "wiping Japan off the map." In general, though, the attitude of the students was fair, a majority favoring that the Axis leaders only be punished. Results

Technique Proofs Deadline Tonight

Juniors' Last Chance To Choose Pictures

Juniors who have not yet chosen their pictures for the 1944 Technique and returned the proofs to the Technique office have a last opportunity to do so today. All those who do not do so will have their pictures chosen for them by the Sargent studios. They will still be able to buy prints of desired pictures, however, at the Sargent studios, 1300 Massachusetts Ave.

The 1944 Technique will have several photo-montages in it, and the editors have asked for photographs pertaining to Technology life. These photographs, which can show anything from dorm riots to activity meetings, should be turned in to William H. Schlegel, '44, in the Technique office. They should have the owners name on the back. Return of the pictures, after the best ones have been chosen and engravings of them made, is guaranteed. Technique staff photographers have been, according to William B. Scott, '44, General Manager, "roaming all over the countryside, photographing everything."

Nearly all the group pictures have been taken this week, and according to Carleton J. Rohrer, '45, all the fraternity articles are in and have been edited to fit the dummy. Work is now proceeding on the organizations and publications articles, said Rohrer.

Technique can still be bought on the installment plan. Pledges, costing \$2.00, will be available in the Technique office until May 14. They will give a saving of \$1.00 on the full price of \$5.50.

VICE-PRESIDENT

(Bachrach)

James R. Killian, Jr., whose appointment as Executive Vice-president of the Institute was announced last night by President Karl T. Compton.

James R. Killian Is Appointed Exec. Vice-President

The appointment of James R. Killian, Jr., as executive vice-president of the Institute, was announced by Dr. Karl T. Compton, President of the Institute, last night. Mr. Killian has been executive assistant to the president since January, 1939, and takes over his new post on July 1st.

In announcing this appointment, President Compton said: "The war has multiplied by several times the amount of the Institute's activities, and has also complicated all operating details. Mr. Killian has shown fine executive capacity in dealing with such matters. He furthermore knows intimately our internal affairs and our alumni organization, and has the confidence of all his associates to an extraordinary degree. As executive vice-president, Mr. Killian will continue to work for the prompt and efficient execution of the business coming to the president's office and will handle certain coordinating responsibilities."

Before joining the staff of the president in 1939, Mr. Killian had been associated for thirteen years with the publication of the Technology Review, of which he became editor in 1930. He is widely known among the Alumni, is a former treasurer of the Alumni Association, and is chairman of the Advisory Council on Undergraduate Publications. His administrative duties include the chairmanship of the board of publications of the Technology Press.

Mr. Killian is a member of the American Association for the Advancement of Science, and the Society for the Promotion of Engineering Education. He is a member of the St. Botolph Club of Boston, and his fraternity is Sigma Chi.

Mr. Killian was born in Blackburg, S. C., in 1904, the son of James Robert and Jeannette (Rhyne) Killian. He studied for several years at Duke University before coming to Technology, where he was awarded the degree of Bachelor of Science with the Class of 1926.

Tech Embassy To Be April 23

Frederick Kellogg Is Chief Ambassador

Final plans for the Seventh Annual Tech Embassy are being completed and the conference is scheduled to start at 5:00 P.M. Friday, April 23, in Room 6-120 with a talk by Reverend Frederick Kellogg of the Christ Church of Cambridge. He is to talk on "Religion in War-time."

Most of the fraternities, the Graduate House, the Student House, and the Association of Women Students will participate in the Embassy and have individual Ambassadors come to their houses for dinner and for a discussion period after that. The purpose of the Embassy is to discuss the part of religion in the world today.

The various ambassadors will meet first in the Moore Room, Room 6-321 at 4:15 P.M. and then go to the lecture hall for Reverend Kellogg's talk followed by a general

Scholastic Subjects Covered By V-1 Examination Tuesday

In a recent release the Navy Department published some sample questions of the V-1 qualifying examination which is to be given to all Sophomores in V-1, and to all freshmen and Sophomores in the Marine Corps Reserve on Tuesday, April 20, here at the Institute. Although these sample questions were taken from previous examinations, there is nothing to make one sure that the examination may not be made more rigorous in order to select only the best men to be sent to school under the Navy College Training Program.

The sample questions for the examination, are much similar to the Navy V-12 examination given here last Friday for candidates for that class of the Naval Reserve. Although the examination has previously been one three hour examination, this year the Navy has announced that men must be present at both a morning and an afternoon session. All men regardless of college courses take the same examination, which the Navy says is a test to be taken in stride rather than a terminal test covering a prescribed course of study.

The questions will be answered on a separate answer sheet. A special pencil will be provided for marking it. The candidate will mark the answer sheet to show

which of the answers listed for a given question he selects as the correct one by blackening with a heavy solid line the space between the pair of lines under the number of the correct answer.

The first of the three parts of the test is shown in the sample to be on vocabulary. Four words are given out of which the student picks the two words which are most nearly opposite and underlines the corresponding numbers on the answer sheet. He underlines 12 if 1 and 2 are opposite, 34 if 3 and 4 are opposite, etc.

Some of the examples which the Navy gives for this type of question are:

1. 1) active, 2) innocent, 3) indolent, 4) unpopular. 13 is the correct answer.

2. 1) gallant, 2) critical, 3) gay, 4) sedate. 34 is the correct answer.

3. 1) ponderous, 2) fallacious, 3) lofty, 4) accurate. 24 is the correct answer.

The next section, also having to do with the meanings of words, asks the candidate to pick out words which bear the same relation to each other as do two given words. The first two words given have a certain relation to each other, and are followed by parenthesis containing six words, one of which bears to one of the words

Class Of '44 To Elect Permanent Officers May 8 '45-'46 Prom Approved

Official Notice

The Naval Reserve V-1 Qualifying examination for all Sophomores in V-1, and all freshmen and Sophomores in the Marine Corps Reserve is to be given here at the Institute in Room 3-440 next Tuesday morning, April 20, at 9:00 A.M., and will be continued in the afternoon in the same room at 2:00 P.M. The Navy has stressed the importance of all men being present for both sessions of the exam.

Theodore Parker To Be New Head Of Civil Eng. Dept.

T.V.A. Chief Engineer Graduate Of Institute Succeeds Prof. Breed

The appointment of Theodore B. Parker, chief engineer of the Tennessee Valley Authority, as Head of the Department of Civil and Sanitary Engineering at Technology, was announced by Dr. Karl T. Compton, President of the Institute, last night. Mr. Parker succeeds Professor Charles B. Breed, head of the department since 1934, who asked to be relieved of his administrative duties to devote full-time to his post as continuing professor of civil engineering. Mr. Parker will take charge of the department on July 1st.

Mr. Parker is a native of Roxbury, Mass., the son of Franklin Wells and Sarah Bissell Parker. He was graduated from the Wellesley High School in 1907, and from the Institute in 1911. He also graduated from the United States Army Engineer School in 1922. Immediately following his graduation from the Institute he served as an assistant in the Department of Civil Engineering for one year, leaving to join the staff of H. C. Keith, consulting engineer of New York City, where he served as a draftsman and computer on highway bridge design. From 1912 to 1917 he was assistant hydraulic engineer of the Utah Power and Light Company at Salt Lake City, and from December, 1917 to March, 1919, he served in the World War as First Lieutenant and later Captain commanding Company D of the 26th Engineers in eight months' service overseas. Upon his return to civilian

R.W.R. Sponsors Dance Thursday

The Spring College Dance, sponsored by Russian War Relief, Inc., will be held in Copley Plaza Ballroom of the Copley Plaza Hotel next Thursday, April 22. Dancing will start at 8:00 P.M. to the music of Ken Reeves and his orchestra. Tickets for the dance are obtainable at either the T.C.A. office or the Russian Relief Headquarters, 128 Newbury Street, Boston. The price is \$.85 per person.

Proceeds from the dance will go to the Russian War Relief Milk Fund to supply war-torn Russia with milk. Madam Nila Magidoff, who recently gave a lecture on the war and Russia at the Institute, will be the guest of honor at the dance.

Solons Throw Out Physical Society From Class B Rate

The election of the permanent officers of the class of 1944 will be held on May 5, along with the elections of class officers from the classes of 1945 and 1946, it was decided at the Institute Committee's regular meeting held yesterday afternoon in Litchfield Lounge. No allowance had been made for the election of any officers for the Class of 1944 in the motion previously passed to hold the election of officers of other classes on that day. The motion was passed without discussion, after a brief explanation by Lewis J. Tyree, Jr., '44, that this would probably be the last time that it would be possible to choose the permanent officers from the entire class.

The budget for the Freshman-Sophomore Prom was also approved at the meeting. This dance, to be held on Friday night, May 7, is being given by the two classes combined this year instead of having each class give its own dance. This in light of the reduced number of men able to attend.

The approval of the budget brought on a long discussion, which included the choice of bands, the price of tickets, the number of tickets to be sold, and all the other problems of running a dance at this time. An amendment to the budget was finally made which specified that if the Prom Committee could not secure certain specified bands, the approval of the budget would be left in the hands of the Executive Committee of the Institute Committee. The budget as provisionally approved was for \$1500.

The only other business brought up before the meeting was the removal of the Physical Society from the list of Class B activities. This organization, it was explained, had no active members at the present time, and had had no activity for quite a while. The motion was brought up from the table from the last meeting.

The only member absent from the meeting was Ernest T. Schoenwald, '44, Chairman of the Elections Committee, while James A. Leonard, '45, and Robert S. Meny, '44, were late.

Voo Doo And T.E.N. Will Appear Soon

Will Be Distributed On Week Of April 26

Both the Tech Engineering News and VooDoo will bring forth their April issues immediately after vacation, it was revealed last night by the managing boards of these magazines.

VooDoo, which is putting forth an exchange issue, with the cream of exchange cartoons in addition to their regular original material, will be published on Monday and Tuesday, April 26 and 27, and will be sold at the desk in the Lobby of Building 10, as well as in various other parts of the Institute.

The Tech Engineering News issue will contain the usual number of engineering articles, in addition to their regular features. The magazine will be distributed on Tuesday and Wednesday, April 27 and 28, and will be sold as usual at the honor desks at various places throughout the Institute buildings.

THE CONSENSUS OF STUDENT OPINION

Outstripping congressional and perhaps State Department sentiment on the subject of an International Union of nations after the war, Technology students voted overwhelmingly for such a union of the world's peoples, as evidenced by the results of a The Tech poll conducted recently. It is, however, painfully obvious that many of the people who shape this country's destiny fail completely to share in the enthusiasm of the students. A major source of apprehension for these men is the Red bugbear, but in this instance, too, Institute undergraduates decided almost two to one that Russia will cooperate in maintaining post-war peace.

In this respect it is interesting to note that the students do not stand alone, for England has also decided to deal with the Russians as if these Russians actually will live on this planet after the war. Washington, (the synechdochal use of *Washington* is frankly a journalistic subterfuge) on the other hand, has been neglecting to consider the place Russia is to occupy in the coming scheme of things. Anthony Eden's visit to the United States had as its main objectives the ludicrous task of selling to us our most formidable ally, and the not so ridiculous task of telling us that will-we nil-we, Britain has committed itself and has found to its great amazement that all the appalling things disappear when once the veil is lifted and the undone done. Action again scores a triumph.

Undergraduate opinion in favor of the union was not confined to mere expressions of like and dislike. The great majority of the students armed their beliefs by empowering a world union to control commerce, maintain an international police power, and declare war on delinquent nations, binding themselves to contribute troops for that purpose. There can be no denying that with such powers, the world union would become an imposing edifice which might rightly serve as a super tombstone for isolationism and economic nationalism. The tombstone might indeed be capped with Vice-President Wallace's controversial bottle of milk, for the liberal trend observable in the poll can only lead inevitably to the ideals of the Vice-President translated into fact.

Nevertheless, the undergraduate consensus was more inclined to favor political cooperation between nations than economic cooperation, as evidenced by the fact that the majority in favor of international police forces was larger than the majority in favor of lowering commercial barriers. For this reason it is not entirely accurate to concede overall liberality to undergraduate sentiments. Incomplete liberality is further evidenced by the lack of faith in labor unions.

Perhaps the most important results which the poll brought to light were the apparent ignorance of the more controversial subjects under discussion throughout the world today. In the light of these glaring oversights in contemporary education, it might appear that the enthusiasm which we claimed previously stems more from wishful thinking and the fascination of mouthsome terms than from any real conviction or study. We hope that such is not the case but the possibility must not be overlooked, for should such be the case, corrective measures are surely in order.

CONGRATULATIONS

The staff of The Tech takes sincere pleasure in congratulating Mr. James Rhyne Killian, Jr., upon his appointment as Vice-President of the Institute. Dr. Compton has shown wise judgment in selecting Mr. Killian to fill this executive position left vacant since the departure of Dr. Vannevar Bush.

All Institute students have deep appreciation for the yeoman work done by Mr. Killian and the administration during the arduous period the school has gone through. His efforts have been invaluable in tiding the students over the difficult period of readjustment. Speaking for the student body as a whole, we express our profound gratitude and admiration.

Parker

(Continued from Page 1)

life, Mr. Parker joined the engineering staff of the Electric Bond and Share Company, New York; where he held the post of assistant hydraulic engineer. From September, 1920, to November, 1922, he served with the United States Army as Captain in the Corps of Engineers, which included one year of duty with troops and a year at the Engineer School.

Hydraulic Engineer

From December, 1922, to March, 1933, Mr. Parker held the post of hydraulic engineer with the Stone and Webster Engineering Corporation of Boston, where he carried on investigations, studies, and designs for various hydro-electric developments, including Bartlett's Ferry near Columbus, Georgia, and the Rock Island Development on the Columbia River in Washington. For a year beginning March, 1933, he served as a reserve officer at the United States Army Command and General Staff School at Fort Leavenworth, where he was commissioned a Lieutenant Colonel in the Corps of Engineer Reserve, a post from which he later resigned.

From August, 1933, to November, 1935, he was on the engineering staff of the Federal Emergency Public Works Administration, serving successively as engineer examiner, state engineer, and acting state director for Massachusetts.

TVA Engineer

Mr. Parker's distinguished engineering career with the Tennessee Valley Authority with headquarters at Knoxville, Tenn., began in 1935 when he was appointed chief construction engineer. Under his direction the huge Norris and Wheeler dams were completed, and he had charge of the design and construction of all subsequent dams up to the present time. This great engineering undertaking includes six additional dams on the Tennessee River and eight major developments on tributary streams. His appointment as chief engineer was made in 1938.

Mr. Parker is a member of the American Society of Civil Engineers and a director of the Society of American Military Engineers.

In May, 1913, Mr. Parker was married to Miss Estelle Peabody of Wellesley, Mass. They have two children, Franklin P. Parker, who was graduated from M.I.T. in 1936

Fire Protection Is Being Taught For War Plants

The fourth of a series of nine-day courses in fire protection engineering for war plant inspection opened at Technology last Monday at the request of the Internal Security Division of the Army Provost Marshal General's Office. This series of courses is given as part of a general army educational program in plant protection engineering under the Engineering, Science, and Management War Training Program sponsored by the United States Office of Education. The course will be under the direction of Professor William H. Brown of the Department of Architecture.

War plant inspectors who will take the course have been designated by Service Commands in Atlanta, Baltimore, Boston, Columbus, New Orleans, New York, and by various district offices. The men are officers and civilian personnel engaged in the work of internal security for the service commands, transportation corps, and air force.

General divisions of the training in fire protection engineering include the nature and causes of fire in manufacturing properties; construction as it affects fire protection; common and special manufacturing hazards; fire protection devices and equipment; public and private fire brigades and inspection procedures.

The course material has been developed in cooperation with the Internal Security Division of the Provost Marshal General's Office and Percy Bugbee, General Manager of the National Fire Protection Association.

Instruction is given by army officers and by engineers of the Inspection Department of the Associated Factory Mutual Fire Insurance Companies.

and is now a Captain in the Corps of Engineers of the U. S. Army, and Nancy, now a student at Wellesley College.

Navy Exam.

(Continued from Page 1)

following it the same kind of relation as the first word outside the parenthesis bears to the second. Among the examples given for this type of question is:

Blotter: ink—(1) sponge, 2) wet, 3) bath, 4) water, 5) spore, 6) rag. The correct answer to this is 14 since sponge bears the same relation to water as blotter does to ink.

Further down the list the similarities become more complicated and one of the later questions is pointer: partridge—(1) picture, (2) frame, (3) collection, (4) conscience, (5) duty, (6) artist. The Navy gives 45 as the correct answer to this question.

The next section in the sample examination consists of algebra and trigonometry, and although the questions are relatively simple, the student must fill in the pair of parallel lines under the correct answer. The following section consists of a pile of similar blocks which are piled in such a way that different blocks touch different numbers of other blocks. Certain blocks in the pile are numbered, and places are given on the answer sheet to designate the number of blocks which each of the numbered blocks touch.

The final section of the examination consists of elementary physics, for which the sample problem is one involving two belt-connected wheels. The direction in which one of them is turning is given. The student must tell which way the other wheel is turning.

The two wheels are of different size, and the second part of the question is to tell which of the two is going faster. In this case, the answer takes the form of an incomplete sentence: If wheel A is revolving at speed p, then wheel B will revolve (1) faster, (2) slower, (3) at speed p. The proper number is to be marked on the answer sheet.

"Although these questions may at first glance seem simple," said Professor John D. Mitsch, "one must remember that the number of them given on the exam, and the complicated way in which the answers are designated may make the test difficult."

Every branch of the Armed Services uses the telephone. One of a series, *Submarine*.

Five thousand miles from home Bill—Torpedoman—is keeping a date. Weeks of waiting, days of watching, hours of hiding under the sea, all for the moment when he reports over his wartime telephone, "All tubes ready, sir!" There'll be other dates, Bill—better ones—in the kind of world you're fighting for.

Cindermen Face Brown And Holy Cross In First Meet Of Season On Sat.

Briggs Field Is Scene Of Triple Meet Tomorrow

Trackers from Holy Cross and Brown will invade Technology tomorrow in the first meet of the outdoor season to be held on Briggs Field at one o'clock. The meet was originally scheduled as a dual meet with Brown but at the suggestion of Coach Hedlund was opened to Holy Cross.

The Beavers met Brown last winter in a dual meet at Providence and at that time defeated the Bruins by the large score of 44-28. At that meet Bob Meny, captain of the squad, came within a half a second of the world's record for the 300 yard dash. Biggest threat from the Bruin team will be Dwyer who took the 40 yard dash in last winter's meet and also won the 100 yard dash in the New England Indoor Championships.

The Crusaders have several men who can cause the Beavers trouble, especially dangerous will be Charlie Gillis who appears to be the handy man of the Holy Cross team. He is entered in the 100 yard dash, 220 yard dash, 440 yard run and the broad jump, while a teammate, Chester Lakomski, is slated to participate in the hammer throw, shot put, and discus events.

The entries from Tech are as follows:

- 100 yard dash—Meny, Bent, Cavich, and Seferian.
 - 220 yard dash—Meny, Bent, Cavich, and Seferian.
 - 440 yard dash — Meny, Bailey, Pritchard and Penner.
 - 880 yard run—Bryant, Spear, and Goldie.
 - 1 mile run—Spear, Poorman and Hammarstrom.
 - 2 mile run—Knapp, Joseph, Cummings, and Hammarstrom.
 - 120 yard high hurdles—Beecher, Donahue, McKee and Crawford.
 - 220 yard low hurdles — Beecher, Donahue, McKee and Crawford.
 - Hammer throw — Artley, Dodds and Richardson.
 - Javelin throw—Reed, Upton, Henrich, and Pastoriza.
 - High Jump—Adams, Pasfield, Donahue and Richardson.
 - Shot Put—Artley, Walke, Dodds, and Reed.
 - Broad Jump — Scherer, Henrich, Donahue, and Hunn.
 - Pole Vault—Ashley, Fletcher, and Hildebrand.
- The Holy Cross entries are as follows but the Brown entries were not available at press time;
- 100 yard dash—Gillis and Netter.
 - 220 yard dash—Gillis and Netter.
 - 440 yard run—Gillis, Dunne, and Kerwick.
 - 880 yard run—Mallahan and Grenier.
 - 1 mile run—Mallahan and Grenier.

Golfers May Sign For Tournament In Bldg. 10

All undergraduates who are interested in competing in a match play tournament to be conducted by the Golf team are requested to sign up either at the golf match box in the Athletic Association office or on the bulletin board in Building 10.

According to John McCarthy, manager of the team there will be no charge for participation in the tournament except the green fees charged the individual participants.

Sailors Compete In Regatta Sun.

A team composed of Sam Parkinson, John Fennessey, Steve King, and Larry Powell will represent the Beavers at the annual George Owen trophy race to be held on the Thames River Sunday in New London under the sponsorship of the United States Coast Guard Academy. This meet formally opens the spring dinghy racing season for the Tech tars. Those competing in the races are Navy, Harvard, Dartmouth, Cornell, Penn, Princeton, Yale, Brown, Williams, the Coast Guard Academy and Technology.

Also on Sunday Boston College will sponsor a meet for Associate members of the Intercollegiate Yacht Racing Association at the Nautical Association Pavilion on the Charles. According to John R. Taft, Commodore of the association general sailing will be permitted with the boats available. On Sunday April 25 Harvard will sponsor a regatta on the Charles River using the dinghies of the Nautical Association.

Volley Ball Tournament Round-Robin Is Started

The Beaver Key volleyball tournament game in the final round scheduled for last night between Chi Phi and SAE was postponed until Sunday, April 25.

Three teams have gained the round-robin to date. Phi Beta Epsilon beat Delta Upsilon 2 games out of three, scoring 15-13, 14-16, and 15-5. Phi Gamma Delta turned back Phi Mu Delta 15-4, 13-15, and 15-8. Sigma Chi took two straight games to eliminate Theta Chi 17-15 and 15-12, although Theta Chi held 14-6 and 11-2 advantages in each game.

Phi Beta Epsilon and Phi Gamma Delta met last night in the first game of the round-robin, but results were not available at press time.

- 2 mile run — Mallahan, Grezebian, Ferrich and Layton.
- 120 high hurdles—Hines, and Grezebian.
- 220 low hurdles—Hines, and Grezebian.
- Broad Jump—Gillis and Milner.
- Javelin—Murray.
- Pole Vault—Sasso.
- Hammer throw, shot put and discus throw—Lakomski.

Dekes Edge Out Phi Sigma Kappa In B.K. Softball

Delta Kappa Epsilon and Theta Chi came successfully through the first round of the Beaver Key softball tournament held on Sunday, April 11. Delta Kappa Epsilon defeated Phi Sigma Kappa in a 17 to 15 thriller. In the afternoon's other game Theta Chi drubbed Chi Phi 11-0. Sigma Alpha Mu, Delta Upsilon, Phi Mu Delta, Kappa Sigma, and Phi Gamma Delta drew byes for the first round.

Lacrossemen Face Crimson Today In Third Try For Win

Tufts Wallops Beavers In Contest Last Sat. By High Score Of 8-1

After dropping their first two contests of the season the Beaver lacrossemen hope to make a comeback today when they face the Harvard stickmen in a contest originally scheduled to take place tomorrow. The game which will be played at Harvard was slated for tomorrow afternoon but will be played today at 4:30 P.M. The freshman contest has been cancelled completely.

Last Saturday afternoon a strong Jumbo aggregation invaded Technology and largely through a first half spree swamped the Beaver squad to the tune of 8-1. Unable to get an attack underway and with the defense functioning poorly the Techmen went down under a barrage of 6 points in the opening half. Finding themselves in the second half, the Beaver stickmen presented a much stiffer defense and managed to avoid a shutout by scoring in the final stanza. However the Tufts team was able to ring up another pair of tallies before the final whistle sounded. The lone Tech score was registered by Les Ackerman.

Student Poll

(Continued from Page 1)

at the other colleges were quite similar on this question. Voting was close at all colleges on the question of the elimination of all economic barriers between nations, the vote at Tech being 53 per cent "yes", and 42 per cent "no".

The voting at all colleges showed that the students in general favor more government regulation than in 1938, and all groups also showed dissatisfaction with the present union situation, 69 per cent of Tech voting in favor of less power for labor unions.

One of the most significant results of the poll was the apparent lack of student knowledge of some of the most controversial speeches of public figures made during recent months. Over a third of those asked at Tech admitted ignorance of Representative Luce's "globaloney" speech, Churchill's Empire speech, the Beveridge plan, and the Atlantic Charter. The Atlantic Charter and the Beveridge plan had student approval, while opinion seemed to be against Churchill's speech, and especially against the "globaloney" speech.

The answers to the questions on religion showed the most variation from college to college, Simmons and Wellesley voting 80 per cent,

(Continued on Page 4)

Courtmen Plan Rally For Next Friday In 1-190

Season Starts Apr. 30 Against Jumbo Squad On Medford Courts

According to Martin Wunsch, manager of the tennis team, there will definitely be a tennis team this year with a schedule planned as near normal as possible. The season will start with a rally to which all aspirants for team are invited and which will be held on Friday, April 23 at 5:00 P.M. in room 1-190. Coach Jack Sommers will be on hand to talk to those attending.

The annual fall tournament which is completed every spring will be completed soon. Captain Ken Nelson won the varsity tournament by default from Fred Kaneb who graduated, while the freshman tourney will be wound up soon. There will be no freshman team this year, however, frosh will be permitted to compete on varsity teams in accordance with the recent Advisory Council ruling.

All netmen are advised to get into shape as soon as possible since the season will get underway fast on April 30 with several matches scheduled immediately after the opener. Since the rally is not going to be held until after vacation, the recess would be an excellent time for the members of the team to get into condition. The schedule is as follows:

- April 30, Tufts, here.
- May 1, W.P.I., at Worcester.
- May 4, Boston University, here.
- May 8, Rhode Island State, at Kingston.
- May 10, Harvard, at Harvard.
- May 15, Brown, here.

Several more matches are planned but arrangements have not yet been completed for their playing.

Gunther Defeats Oszy In Tourney

In the final round of the M.I.T. Varsity Squash Tournament for the Emerson Cup, Robert J. Gunther, '43, defeated Alexander J. Oszy 3 games to 2. Gunther won the first game 18 to 16 and was defeated by the same score in the second. He took the third game 15 to 10, and Oszy came back to win the fourth by the same score again. Gunther turned on the heat and took the last one by a six point margin, 15 to 9.

Need we hammer home the wisdom of investing in Rogers Peet Clothes?

Especially these days when clothes have to last a long, long time.

There is no substitute for Quality—either in clothes, or hats, shirts, ties, etc.—for men, for boys.

ASK THE SOLDIER IN THE SOUTH PACIFIC

"BOY, THE HEAT AND WORK DOWN HERE ARE SOMETHIN', AREN'T THEY?"

"WHAT LUCK... COKE! IT'S GOOD FOR THE OLD MORALE."

"That's based on a real letter. 'Gimme a Coca-Cola' is the watchword for refreshment with every branch of the service. It's the soldier's buy-word wherever they gather... and they get together where they can get Coca-Cola. Distinctive, delicious taste. Quality you can count on. Thirst-satisfaction plus refreshment. Any way you look at it,—the only thing like Coca-Cola is Coca-Cola, itself."

Conference Here This Week End

Pinard And Ulrich Will Give Addresses

The Fourth Annual Spring Student Conference, sponsored by the International Student Association of Greater Boston, will be held at the Institute Saturday, April 17. The meeting will run from 2:00 P.M. Saturday afternoon to about 9:00 P.M. the same evening.

The purpose of the conference is to discuss the problems of the student and the war. Registration for the conference will be in Walker Memorial Saturday at 2:00 to 2:30 P.M. and all students are invited to attend. The meetings will feature talks by Professor William J. Pinard of Northeastern University, Dr. Robert Ulrich of Harvard University, and two discussion groups.

The International Student Association is made up of foreign students from Greater Boston colleges. Several persons from Technology are members of the Association's Conference Committee. They are Dr. Robert G. Caldwell, Dean of Humanities, Mr. Wallace M. Ross, General Secretary of the T.C.A., and Sezai H. Cankut, G. Nelson Chang, '46, and Cankut have done most of the work in arranging the conference. Chang is the Foreign Students Director of the T.C.A.

At 2:50 Professor Pinard will give an address on "International Morality." After that the two discussion groups will meet. Dr. Hans L. Teuber of Harvard will lead one group on "The Student and Intellectual Reconstruction" and Dr. Alvin H. Hansen, also of Harvard, will lead the other group on "The Student and Physical Reconstruction."

Following these groups at 5:15 P.M. Mr. E. E. Nadel, of New York, will direct some international folk dancing in the 5:15 Club room. At 6:30 a buffet supper will be served in the Graduate House.

Activities Notes

Chemical Society

The M.I.T. Chemical Society will hold a combined meeting with the Tufts Chemical Society at 7:30 P.M. on April 27, it was announced last night by Miss Marion Ferris, '45, secretary of the organization. The meeting is to be held at the Tufts Chemistry Building on Talbot Avenue in Medford.

The speaker of the evening will be Dr. John T. Blake, director of research at the Simplex Wire and Cable Co., Cambridge. The subject of his address is to be "Plastics".

Everyone is invited to attend the meeting, but all those who intend to go should contact the officers of the society as transportation is being arranged. Refreshments are to be served.

Women Students Assoc.

At a recent meeting of the Association of Women Students, the following co-eds were elected as officers of the organization. Eleanor E. Dean, '45, is the new president, Mildred B. Edwardson, '46, vice-president; Asuncion A. Rivera Anaya, G, secretary, and Emily Vanderbilt, '46, treasurer.

Technology Dames

As the Emma Rogers Room has been taken over by the Infirmiry, the Red Cross workers of the Technology Dames Society are now working in Room 2-190.

Bridge Club

Sign up lists will be posted in the Main Lobby of Building 10 immediately after vacation for the Bridge Club tournament which is to be held on May 1 and 2. This contest will be open to all persons connected with the Institute, and they will be paired into teams of two. The prizes in the tournament which are to be awarded to the first and second teams, will be books on bridge or their equivalent in cash.

The Bridge Club announced last night that there would be no tournament this week, but that regular weekly tournaments would be resumed on Saturday afternoon, April 24.

Student Poll

(Continued from Page 3)

Harvard 35 per cent, and Tech 48 per cent as thinking religion should assume a more important role in the post-war world. Tech hit a high in something or other, when 73 per cent expressed the opinion that religion would not actually assume a more important role after the war. Even Harvard only had 70 per cent answer "no" on this question.

T.C.A. Embassy

(Continued from Page 1)

discussion period in which all of the Ambassadors will participate. The fraternity Steering Committee is completing its reports on those participating and helping those who have not as yet been able to obtain an ambassador. The ambassadors are mostly members of the clergy and others are persons qualified to talk on religious subjects.
